difficult life in paradise can be.

So what can you do if you didn't inherit, come here with an established career or a stuffed bank account? Well, you could

grow pot but that's illegal.

a home and well, you'd have to move away. Your profit wouldn't be worth much in the same market it was made because in likely realize a nice profit. Oh, but that would leave you without value of Island dirt would continue to climb and you'd most you could also sell off your chank of paradise to the highest bidder because as more of those off-Island wealthies arrive the move here. Then you might get work servicing them. That way Or you could encourage those with stuffed bank accounts to

in support of the status quo. Why should we, living as we do in So lower your expectations. That's another argument raised order to purchase more dirt you'd be competing with those to whom you'd sold. Of course, if the inevitable is really inevitable then perhaps that's the best option.

line? Is the stress of poverty less noticeable when experienced in a clean environment? Maybe, but not enough.

The really harsh aspect of this (for me) is that I think we tise, care about beating the nationally established poverty

people. (By the way, I have nothing against the rich. Diversity, have, right here at home, most of the elements required to ensure we all live comfortable, fulfilling lives without covering the surface of the Island with hordes of independently wealthy the surface of the Island with hordes of independently wealthy

Why is it that when we think of improving our lot we so often nowever, makes life interesting.)

ever it was that our trees were sold. It's expensive but, hey, that's life. Meanwhile very few of us gain employment from this lumber yard and buy lumber that's been imported from where bit of money we've made off the sale of the land and its trees, we decide to build ourselves a nice new house. So, we go to the trees are shipped off and turned into lumber. Then, with the process. The trees are all chopped down (leaving us with a process, The trees are all chopped down (leaving us with a trees to companies like Texada. We make a bit of money in the some money that way. Here's irony—we sell our land and its Let's sell it off! The Yanks will buy our water, we can make look to the horizon? It's a kind of Canadian trait. Let's export!

Am I hopelessly naive or is there a better solution? inefficient transaction.
