• St. Mary's "Vicarage" is probably the smallest building of its kind on this continent. It is a frame structure, eight feet by twelve on the outside and has a door and one window; its walls are covered with ivy; roses and honeysuckle; there is a tiny flower garden in front, and a fine view of the sea and distant mountains. Inside are a table, a bench, one chair, bedstead turned up against the wall in the datime, and a nice open fire place. The Bishop
