PENDER ASKS FOR STUDY BUT

BOARD CHOOSES MAYNE FOR SCHOOL

- TO SEEK APPOINTMENT WITH MINISTER

Gulf Islands School Board has chosen Mayne Island as the location for a "middle school" to serve the Outer Islands. School will serve the Outer Islands and provide classes for grades 7, 8 and 9.

Two separate proposals have been offered the board asking for the same provision, but with different locations in view.

The Inter-Island Committee asked for the provision of such a school on Mayne. At that time the committee spoke for Mayne, Saturna and Galiano.

A week later the Pender Parent-Teacher Club asked for such a school on Pender Island.

The trustees had urged the Pender delegation to sit down with the earlier committee and to reach an acceptable compromise.

Last week the Pender club wrote to the board for a feasibility study in view of the fact that neither island group has the necessary expertise to make such a decision.

If the expertise is lacking in the board, then trustees should approach the provincial government for information on all factors affecting the decision, added the club.

Chairman Charles Baltzer was not sanguine of the assistance they would get from the government. There is no department who knows the island as well as the school board, he commented.

"It is doubtful whether many employees of the department of education have ever been to the islands," he observed.

Trustee Betty Vasilev introduced

FLOWERS FOR CHURCHES FOR SECOND YEAR

Flowers for island churches will be featured again this year by Salt Spring Island Garden Club.

The floral displays were carried out last year in various churches for the first time.

Display will be undertaken on June 15 and 16.

HOLDS TOP HAND IN CRIBBAGE GAME ON HOLIDAY

Stephen Dumas, of Tsawwassen, who is visiting his mother, Mrs. Anna Dumas of Ganges, was dealt a 29-hand in crib at the week end.

He was playing a four-handed game with his mother and brother, George, and his wife.

CHIMNEY FIRE

Chimney fire brought Salt Spring volunteer fire department to the home of L. A. Bittancourt on Bittancourt Road on Monday, April 8.

There was no damage to the building.

used a motion to initiate a feasibility study and to decide the location "only after all the factors governing location are carefully considered".

Mr. Baltzer expressed regret that the board could not get a

unanimous brief from all the Outer Islands asking for a new school with one location named.

The feasibility study would be to decide whether the
(Turn to Page Seven)

MORE POLICE NEEDED—BINGHAM

More police are needed at Ganges.

Col. Peter Bingham, chairman of the Centennial Park Society at Ganges, has asked the Attorney-General for increased police to combat the steady rise in vandalism here.

Last week the Salt Spring Island Chamber of Commerce offered unanimous support for his request.

Col. Bingham listed the recent destruction of the flag pole at the Centennial Park; wrecking of the toilets and the spreading of garbage from the park garbage cans all over the area.

In addition to endorsing the request, the Chamber asked for an enquiry into provincial government programs for countering vandalism.

Walkathon is best ever

Lions Walkathon on Saturday was the best ever. In terms of money raised, community co-operation and spectacle, it outshone every previous walkathon in seven years.

Introduction of chariots into the event brought enthusiasm and keen support. The chariots formed a spectacular part of the day's program.

Even in terms of weather, the day was exceptional. Walkers walked or ran in brilliant sunshine as the weatherman pushed the mercury up to the seventies.

The assembly point in Centennial Park was roped off and a few had already gathered when the B. C. Ferries prize-winning chariot came in. Equipped with an engine room telegraph as well as a driver in authentic gear, the chariot was a polished production.

The winning entry was not the first entry home. In first place came the Royal Fulford Harbour Gentlemen's Yacht Club, with the fastest unit to meet Lee's Hill. The float was clocked at 38 mph half way down the hill and the entrants estimated its speed at the foot of the hill in the vicinity of 50.

Second place was also taken by Fulford Harbour, with the Fulford Hall Committee trotting home in a sulky dressed up and embellished with figures of roller skates.

Salt Spring Island Rotary Club was third, with Dick Toynbee taking on the appearance of an elderly woman in his Roman toga and grey locks.

There were the down-to-earth walkers, headed by Arthur Buitenwerf, who ran into first place and there were the more light-hearted who had no intention of competing for prizes.

Mr. and Mrs. Fred Haywood were dog-tired as well as their German shepherd pulling his own float. Vernon Christenson made the whole trip on stilts and Larry Anderson and Winnie Woods set out to waltz their way from Ganges to Fulford.

PRESIDENT OF SPEC

MIKE LARMOUR NAMED AGAIN

Mike Larmour was re-elected president of SPEC at the annual general meeting in the Legion Hall, at Ganges, on Wednesday evening, April 10.

In a brief report to the membership, Mike Larmour summarized the work of the local group during the past year.

He pointed out that SPEC's two main concerns about the proposed sewer system were first, that the sewer system would allow dense development in the area served by the sewer and that an overall plan for Ganges should be formulated before unplanned development occurs. There would be

an accompanying traffic congestion and rise in population. Secondly, that the proposed outfall will cause the harbour to be polluted and that the prevailing winds would force the polluted water towards the Ganges end of the harbour.

At the end of its second year of operation, the SPEC Recycling Depot is currently collecting about a ton of paper, tin and glass each week. In April the Central Recycling Depot in Victoria began sending a truck to transport the recycle material.

The eutrophication of the lakes was discussed and the

QUIET EASTER WEEK END

Easter week end was quiet on Salt Spring Island although traffic was heavy and visitors swarmed here from the mainland and Vancouver Island.

Ganges detachment, RCMP reports minor hassles in the various camp grounds. A quan-

tity of liquor was seized and one man was charged with causing a disturbance in Mouat Park.

Fred Heal was fined \$35 for the offence.

"All in all the week end was good," a police spokesman told Driftwood.

CLEAN-UP CAMPAIGN COMING

Plans are under way for a clean-up and paint-up campaign on Salt Spring Island again this year.

Sponsoring the project is the Salt Spring Island Chamber of Commerce. Dave Hill, of Ganges Crest, will be making the necessary arrangements.

Wilf Peck falls from house roof

Wilfred Peck, secretary-treasurer of Gulf Islands School District, is in a Victoria hospital recovering from injuries sustained when he fell from the roof of his house on Good Friday.

The school board official, who has built a new home at Scott Point, was working on the roof when he fell two storeys to the rock below.

He suffered fractures to the shoulder and legs and other injuries.

Salt Spring Island fire department was called to his assistance and he was rushed to Lady Minto Hospital and later transferred to Victoria's Royal Jubilee Hospital.

HE DIED ALONE ON SECRET ISLAND

A young man died alone on Secret Island last week when he was the victim of an epileptic seizure.

Graham Crowe was 23. He died suddenly at 6 pm on Friday, from suffocation brought on by the attack.

new SPEC executive will investigate the possibility of establishing continuous testing procedures.

To serve with Mr. Larmour, are Beth Hill, vice-president; Sue Talman, secretary-treasurer and Catherine Faulkner, publicity.

Mr. Larmour expressed thanks to all those who have supported SPEC during the past year and urged sympathizers to take out SPEC memberships. "The central SPEC organization does a lot of important conservation work on our behalf at the provincial level."

NO STREAKERS AND NO STRIPPERS

Streakers, strippers, sword-swallowers...they are all wanted for the May Day Fair

at Ganges.

Jack Althouse, chairman of the Salt Spring Island Chamber of Commerce May Day committee, told the Chamber last week that response to the appeal for talent has been very slow.

Mr. Althouse is hoping to stage a day-long program of

MA'YNE-PENDER-SATURNA
WILSON
ELECTRIC LTD.
539-2173

local performers of all kinds, singers, musicians and any other activity. Stage would be set up for the performers and they would follow each other throughout the day.

The day is May Day, May 18 and the location, the elementary school grounds at Ganges.

In charge of the May Queen contest is Ellen Bennett. The Gulf Islands Secondary School will co-operate in the choosing of a May Queen.

The day will open with a pancake breakfast and the directors of the Chamber were all urged to attend in order to serve the hungry hordes taking part. Pancake eating contest will be the biggest challenge, said Mr. Althouse.

Catering to the contest will be the boys' class in home economics.

In concluding his report, Mr. Althouse also asked for community co-operation in entering floats for the day's program.

Mrs. Christine Fleming attended the meeting on behalf of the island riding club. Riders will take part in the parade and provision of refreshments as well as staging a trail ride through the afternoon, she volunteered.

The club has asked that horses be as far away as possible from the fire trucks whose sirens are alarming to the horses.

HOURS: Monday - Friday 9:00 to 5:00 p.m.

Before you sign, do you ask these questions?

Before you sign any credit or loan contract you should ask yourself these questions:

- Am I getting credit at lowest cost?
- Will my family be protected should the unexpected occur?
- Am I using a credit source I can count on in the future, and which benefits my family and my community?

To answer these questions, compare other types of credit with a loan from the Credit Union. You'll be glad you did.

On & Off The Island

Visiting Mr. and Mrs. Nels Degnen this week end were Mr. and Mrs. Michael Morris, of Nanaimo and children, Susan, Shelly and Raymond; Mr. and Mrs. T. E. Isbister, of Courtenay with their children, Sheri, Jeannie and Kelly; Brian and Margo and their niece, Wendy Atkinson and her son, Murray, of Ladysmith.

Mr. and Mrs. J. Turner, formerly of Victoria, have taken up residence in their new home on Fulford-Ganges Road.

Mr. and Mrs. Allan Alexander, of Sidney, spent Easter Sunday with Mr. and Mrs. P. J. Meagher, of Ganges.

Mr. and Mrs. Max Allard and children, Mike and Linda, of Victoria, were visitors at the home of Mr. and Mrs. R. M. Akerman, Fulford, and H. Allard, of Ganges on Easter Sunday. Also visiting at the Akerman's is Mrs. Bev Gibson, of Vancouver.

Leon Fortin and Armand Quesnel have returned home after spending a week in Saskatchewan.

GALIANO

BY MARY BACKLUND

Church of St. Margaret of Scotland was filled to overflowing on Easter Sunday. The service was conducted by Rev. William Mundy. It was heartwarming to see so many children, and they sat on the kneelers along the aisle, so that the rest of the people could sit in the pews.

The church was decorated with all kinds of spring flowers, by members of the congregation. Mrs. Margaret Robinson was organist, with all joining in to sing the glorious hymns of joy.

Every ferryboat that came to the Islands was filled and many Islanders entertained friends and relatives for the week end.

Many people were happy to see not only a police car, but the R.C.M.P. ship, M.P. 53, over to Galiano for the several days. Thanks to their hours of patrolling, there was no trouble.

In the Chinook language the word "chee" means new or fresh, while the word "chako" means to come. The term Chee-chako was applied to newcomers into Yukon at the time of the Klondike Gold Rush of 1898.

Sergeant-Major Ken Byron has returned to Wainwright, Alberta, after spending three weeks with his mother, Mrs. J. Byron Sr. on Epron Road.

Keith Fehr, of Coquitlam and Michelle St. Denis, of Chemainus spent the Easter holidays with their grandparents, Mr. and Mrs. George St. Denis at St. Mary Lake. Also visiting were Mr. and Mrs. T. R. Rixon from Port Angeles.

Brian Wolfe-Milner and John O'Donnell, of Vancouver were guests at the home of Brian's parents, Mr. and Mrs. A. W. Wolfe-Milner on Old Scott Road.

Mr. and Mrs. B. Bradbury, with Suzanne and Laura of Victoria, and Miss Helen Mellor of Vancouver; Janet and Jim Medland, Henry Medland and Bonnie and Ernie Medland, with Brandy, all of Victoria; Paula and Jennifer Psallikas of Victoria, and Bruce Baker, also of Victoria, were visitors at the home of Mrs. J. W. Baker on Robinson Road over the weekend.

Mr. and Mrs. T. A. Toynbee and family have returned home after spending a three-week holiday in Hawaii.

Mr. and Mrs. A. Newell, of Vancouver, were visiting Mr. and Mrs. Ian Macdonald over the Easter week end.

DEATH OF LYNDELL

BITTANCOURT

Lyndell Arthur Bittancourt, of Bittancourt Road, Ganges, died at his home on April 8. He was 81 years of age.

The veteran islander came to Salt Spring Island at the age of two and had lived here ever since. He was a carpenter and contractor on the island for many years.

He was a member of a pioneer Salt Spring Island family. Lyn Bittancourt was the son of Reid Bittancourt, colourful customs officer here in the 1920's.

He was predeceased by his wife, Nora, in 1972.

Funeral services were held in St. George's Anglican Church, in Ganges, on April 11, when Rev. Peter McCalm officiated. Interment followed in St. Mark's cemetery. Arrangements were by Goodman Funeral Home.

to be frank

By Richards

Bob Lawson talked himself to a standstill the other week. He took part in a Lions gathering at Comox. When he got back home he had talked his voice into disappearance. After several days his shout was a whisper. Odd thing is, I heard nobody complaining except Bob.

There are plenty of fish in the sea. There are plenty in the lakes as well, now. Last week the department of recreation put hundreds of small trout into Weston and Stowell Lakes. Troutmaster explained that the small fish will remain that size indefinitely if there is a lack of feed. As soon as they eat, they grow. I have the same trouble.

Last week Stuart Margolin came to spend a few days on his Salt Spring Island farm property. He flew from Hollywood. He had tried for a previous week and the flight to Vancouver Island was booked up. Why not drive? Problems with gas, he explained. It lines up with two other travellers, Laurie and Isobel Mouat were in California and they travelled by bus. They were impressed with the service and the economy. The bus routes went far and cheaply. About the same time Maurice Atkins was coming up through California with his camper. He sweated mile after mile with the gas gauge showing empty, looking for a garage that was open. He got here, but it was a desperate journey, he reported. Some have made the trip without incident and some have been worried by the shortage of fuel, but no one has been in to tell us that he never got here for lack of gas.

I'm scared of Certs... I can think of no more revolting fate than having him kiss me once!

Amazing how few people heard of the Marmon Roosevelt, that elegant motor car of the 'tween war period. During

the war I drove one that had started life in Sidney as the property of a druggist and ended up as mine, before it went to a car wrecker, "Junky" Brown. A straight eight, its only shortcoming was that the wheels dropped off unexpectedly.

I don't mind cooking. I don't mind demonstrating my skill even when my wife explains that in this Age of Enlightenment... and she says it with capital letters... it's a man's job. So one morning last week when Women's Lib was still snoring its liberated head off I decided to cook waffles. It's a big job. You take a packet of prepared powder with a liberated aunt on the front and you mix it all up. There was no cooking oil. I found some fat from a previous catastrophe in the kitchen and I figured out how to measure tablespoons of cold fat. But it had to be melted. So I dropped it in the frying pan and melted it. In no time flat the mixture was ready. As I poured it out I got a whiff of it. The frying pan had obviously been used to fry onions. I don't like onions with maple syrup. It tastes like the cough medicine that was never much good but didn't taste too bad, but I didn't have a cough. Here was a jugful of waffle mix that smelt like it missed the soup. I sadly poured it down the sink and ate a piece of toast. On Saturday I was not going to be defeated by a waffle. As usual I was up bright and early and Women's Lib was fast asleep. Have you noticed how women's lib works that way? I found everything in the mixing bowl, but Women's Lib has found a new place for the beaters. I didn't find the new place, so I transferred the whole dirty mixture into the blender, spilling gobs of goo over the counter. And I mixed it without onions. I poured the results of my labours into the waffle iron and stood back with a pleasant taste in my expectancy. Gradually the air in the kitchen thickened. The waffle iron smoked and the waffle was burned solidly to the machine.

It was nothing. I got out the old iron and filled it with waffle mix while the stinking mass of burnt flour cooled off. Five minutes later a second waffle iron was glued tight with waffle. We had bacon and eggs for breakfast.

TWO PLAYS ON NEW STAGE

The Salt Spring Players will make their first appearance on the new Activity Room stage on Monday evening, April 22 at 8 p.m.

They will present their two one-act plays "Rise and Shine" and "The Rats". These two plays have been entered in the B.C. Drama Festival in Victoria and will be performed there on April 27.

The players have spent a considerable amount of time rehearsing, improving and polishing their performances since the first presentation of the plays in March of this year.

The performance on April 22 will be open to the public at no charge. A collection box will be at the door to help defray costs of royalties and festival expenses.

TWO LETTERS BUT NO ANSWER!

Some changes must be made in the administration of health services in the schools. Last week trustees of the Gulf Islands School District were still uncertain of the nature of those changes despite two letters outlining the procedure.

Secretary-Treasurer Wilfred Peck told the board that he had read the instructions from the Attorney-General and the letter from retiring medical officer, Dr. J. L. M. Whitbread.

"After reading the two letters, the proposed by-law and the act," said Mr. Peck, "I would recommend that the whole matter be referred to the department of education." It was.

MODERNISE WITH PROPANE

Valdy to sing on Saturday

Valdy, Canadian folksinger with roots in Salt Spring Island will sing at Beaver Point Hall on Saturday evening.

He has changed his mind, his hall and his day, but he is still coming to present a concert on the island.

The singer will be accompanied by Diamond Joe and

Bruce Miller. Change in date came about as a result of the change in his Victoria engagement. He will sing at the McPherson Theatre on Sunday evening. Valdy is the son of Mr. and Mrs. Paul Horsdal, of Beaver Point.

The island concert represents the end of his coast-to-coast tour. The folksinger makes his home in Newfoundland.

SUMMER SINGERS IN GANGES SUNDAY

HEAR! HEAR!

There is something baffling to the building industry about achieving a hall that is suitable for more than one purpose. All over British Columbia are to be found schools boasting an auditorium which refutes its very name. Most auditoria, such as the magnificent gymnasium at the Gulf Islands Secondary School, mangle up every sound uttered or produced within and discharge a cacophony of echoes bearing no resemblance to words or music.

The trustees of Gulf Islands School District may be very satisfied with the new combined facility at Salt Spring Elementary School. For the first time, Salt Spring Island boasts a school facility which will let the listener hear what the speaker says.

The sound of music, the chatter of living people... every sound sounded comes out as a sound heard. It may be that trustees from distant parts of the province will gather to examine this strange addition to a school in B. C.

Equally worthy of commendation is the man who designed such a school building.

The new activity-community centre is a rarity. It is the product of the collaboration of school authority and local authority. The school undertook the activity room as a function of the elementary school. The community, through the Capital Regional District, undertook to enhance the activity room to serve a wider range of people in the community.

The collaboration is impressive and so is the effect. While many may take a bow, none was closer to the project than Mrs. I. V. Guthrie. As chairman of the school board and subsequently as chairman of the building committee, she has stayed with the project from a vague idea to a reality.

Only one slight criticism obtrudes itself.

Where else but in a school would the stage occupy one end of the "long wall"?

Letters To The Editor

THEY SENT IT BACK!

Sir,
Recently, we received via third class mail a very large envelope, marked printed in Canada, containing an offer for a free book, volume 1 of an encyclopedia. While Alaska, the Air Force, Africa, Argentina, and the Arctic regions are mentioned as subjects of the encyclopedia Alberta, arbitration, and any Canadian topic are not listed. Parents, educators and the press who recommend this encyclopedia are from Texas and Illinois. Every contributor and consultant mentioned in the enclosed literature is American.

We are returning the offer and its contents in its envelope junk mail rate (Canadian) post card attached.

Coke LaFlam,
Guy La Flam,
Tahsis, B. C.
April 7, 1974.

GRATEFUL LIONS

Sir,
Salt Spring Island Lions Club are greatly indebted to the public-spiritedness of their fellow islanders.

They are also grateful to

those people and businesses from off-island who gave us their support.

The charioteers and their slaves added a new dimension in colour and excitement as well as bringing in significant financial support.

It is obvious to us that there is a great deal of interest in the drive for a recreational complex for Salt Spring. It is our hope that as time goes by that more and more citizens will lend their support to this endeavour.

In cash and pledges the Walkathon realized more than \$6,000! That is two or three times as much as we had hoped for. A more accurate figure will be announced when all the returns are in.

If any donor has given cash and finds that the donation has been deducted from his bank account, it has been an error on our part. If he draws it to our attention we will straighten it out immediately.

If there are any walkers who made it all the way and did not get their ribbons, or if there is a question in anyone's mind about classification winners, they can contact me at

any time.
We don't want to miss anyone.
Once again, we are grateful to everyone for their participation.

Les Ramsey,
Chairman,
Salt Spring Island Lions
Walkathon,
Ganges,
April 16, 1974.

NOT CONTAMINATED

Sir,
Fulford Hall water is not contaminated, never has been. It isn't the purest water by any means, yet no one has died from drinking it over the past forty years or more, at least they have never said so.

Many organizations have been catered to in the past 10 years, Lions Club, Rotary, Rod & Gun, Roller Hockey, and various other groups. The Women's Institute held teas in the hall for years, and are still in good health. However the water that is used in the hall, comes from a spring via a creek passing thru Mr. Cudmore's property, previously owned by the late Mr. Shaw.

Mr. Shaw gave the land that the Fulford Hall is now built on, he also agreed that a water line could pass thru his property, under the road, and into the hall, it is a gravity fed system, and our only means of water at this moment, present owner Mr. Cudmore has carried on in the same manner allowing water to pass thru his property, as in the past.

We cannot drill a well of our own due to the fact that we have no property to drill on, we are too far from the Fulford water supply so can't join up with them. However this is not the latest problem, a report was sent to the Health Board, Victoria, stating the water was not fit to drink, it was then tested and found to contain foreign bodies, and whose water doesn't, however when you are dealing with the public these factors cannot be overlooked.

The Secretary received a letter instructing the committee to instal a chlorinator or water purifier, in order to clear the water system. I would like to inform the public of Salt Spring Is. that the water in Fulford Hall has passed thru an Aqua Care Treatment plant, and the Health Board has given us their blessing.

If there are any level headed open minded citizens interested in helping to solve our water problems, I would be pleased to hear from them, this is your hall so, let's help to keep it open, it's too big to close it down.

Written as a parent, also a member of the Hall committee, but not for them.

Kit Moulton,
Fulford Harbour,
April 16, 1974.

60 YEARS AGO

The Cowichan Leader ran an article on June 27, 1912, sent by a "Lady in London". The present-day fuss and concern of women over fashion is not a modern phenomenon as this article proves.

The lady writes with great detail over what is to be worn and not to be worn, maybe with more interest in dress than is found in the latter part of the 20th century.

London, June 25, 1912.
Dear Lady Readers,
I have been asked to write a weekly "letter" about fashions.

Having had a good deal of experience in living in the colonies, I imagine I have a fair idea of the kind of information you want but should be very glad of hints on the sort of thing you most need.

I propose this week to give you some general idea of "what's worn" and during the

next few weeks to give detailed accounts of the various departments of the wardrobe.

To begin at the "top"... hats seem to be roughly divided into two classes, the gigantic and the quite small, but I never remember so many different shapes being wearable at the same time. The chief characteristic is that all trimmings, flowers, feathers or ribbons seem to be arranged in one group and all simply "shoot" upwards... very smart folk I have seen with quite two feet of towering furniture waving in mid air.

Seriously, when not overdone, these high trimmings look very smart and give height so necessary to the small woman. Every colour seems fashionable, but cerise, often used with grey - is first favorite this season - and the most used material is taffeta or glace silk.

We have had the rage for satin and the recent ugly hard looking garments in Moire - now it is taffeta for young and old. Some of the new shot effects are lovely and the advantage is, that they look so rich in themselves they don't need expensive trimmings. Figures remain more true to the natural shape than they have been for years. The straight shape that mere men call "tubes" simply mean we don't now nip in our waists and the neat straight costumes,

(Turn to Page Fourteen)

VESUVIUS

BY S. S. MILLEN

The chug of a tug boat
Hefting its load,
The scent of rose gardens
And rain on the road,
Clank of the ferry dock,
Plume of the mill,
The rumble and sputter
Of trucks on the hill,
Taste of the salt spray,
Wind, flinging leaves,
Vesuvius Bay
And the Arbutus trees.

IT'S THAT TIME OF YEAR AGAIN!

Well, it's that time of the year again, when hope springs

DAIRY FARMERS TO GET HELP

The Provincial Government's new Dairy Income Assurance Program could make a difference to some island farmers. Roger Hughes explains that the Department of Agriculture had worked out that the cost of producing 100 pounds of milk last December was \$12.52. At that time Mr. Hughes was being paid only about \$10 per hundred pounds of milk.

The government now proposes that the farmer should be paid the difference between their calculated cost of production and the actual money the farmer receives for the milk.

Mr. Hughes has applied to join this program, as have over 91% of B. C.'s eligible dairy producers, but he has not heard as yet whether he will receive the benefits, which are retro-active to December 1, 1973.

FOLLOWED BY A FUN SHOOT

eternal in every golfer's heart. We have had literally hundreds of requests from one or two golfers, as to when the ever popular Aage Villadsen Golf Classic will be held this year.

This challenging nine-hole event will take place this year at the beautiful Salt Spring Island Golf and Country Club on May 18. It is appropriate that this year the tournament is being held on the same day as the May Day Festivities, as all profits from the Classic this year, will go towards the Lions Club Recreation Centre.

Project: unless otherwise posted, first tee off time will be 8 am, which should allow

most golfers to be finished in time to take part in the other well planned festivities.

Don't delay in getting your entries in for this exciting, fun filled event. Prizes are given for the longest drive, nearest the hole, putting contest, etc. Trelford and Humphreys Car Sales are also offering a 1974 Dodge Dart, to anyone scoring a hole in one at number 8 hole. So if you have a trained gorilla at home, bring him along and win a new car!

Come out and support Aage and the Lions Club in their wonderful project for the Community Centre. See you on the first tee, or the 19th hole on May 18.

MAYNE

BY ELSIE BROWN

The Easter week end has come to an end and must be one of the nicest and most eventful on record. The ferries were laden with happy commuters and visitors and most of the regular folk were able to get reservations.

It is like "Old Home Week" on the island when islanders meet with week-enders to compare notes on weather and winter activities.

The next coming event of interest is the Bazaar and Tea sponsored by Mayne Island Agricultural Society, slated for Saturday, April 27 at 1:30 pm. Items for the various departments would be appreciated. Committees in charge are as follows: home baking, Margaret Bennett and Betty Ross; plants, Nancy Rainsford and Betty Fry; white elephants, Maude Smith; tea, Arts and Crafts group, sewing, Winnie Hayhurst. There will be a door prize and at least three raffles offering a quilt, pictures and other interesting items. For further information contact Marjorie Haggart or Betty Fry.

The picture of the presentation of the tables to the Agricultural Society by the Lions Club has not arrived so will report this event for the benefit of those who are not aware of this latest donation to the community hall. Representing the Lions Club was Jerry Medcalf, who made the presentation to Mrs. Marjorie Haggart, president

of the Agricultural Society. The tables will be used by any organization renting the hall. They are most welcome addition and very much appreciated by the groups who use the hall for their various functions. Thanks are due this very active service club on our island.

Visitors to their island home for the first time this year were Maurice and Etta Reitz of Surrey. They are on the second phase of their home on Waughs Road and making good headway. Etta has a new nick name, "Gopher" - go for this and go for that. She hasn't graduated to the position of "Straw Boss" yet. Getting a high score on our Minigolf course isn't going to win her any points either. The Reitz have returned from an enjoyable holiday by bus to California and Mexico and can really recommend the tour.

Visiting the John Benistons at Oyster Bay were Mr. and Mrs. W. Fahlman of Port Coquitlam.

Don Vigurs had a visit to the hospital in Victoria recently where he underwent surgery. He is back on the island and feeling very well, he reports.

Scholarship named for Galbraith

The Capital Regional District scholarship to the Lester B. Pearson College of the Pacific has been dedicated as the Archie Galbraith Memorial Scholarship, in honor of the late Mayor of Central Saanich who died Tuesday.

Members of the Regional Board stood in silent tribute at Wednesday's meeting of the Regional Hospital Board, after which they unanimously voted to call the \$4,750 scholarship the Archie Galbraith Memorial Scholarship. Mayor Galbraith was Central Saanich's Director on the Regional Board. Regional Board Chairman Jim Campbell, spoke on behalf of all his colleagues on the board.

"Archie Galbraith will be remembered in the hearts of all who knew him as a sincere and forthright individual with an unfailingly constructive approach to issues. He will be sadly missed," he said.

Hot line for fire at school?

Should there be a hot line from Mayne Island school to the fire hall? Question was raised at last week's meeting of the Gulf Islands School Board.

Proposal had been made by Mayne Island firemen, trustees learned.

The fire hall at Mayne is not manned, commented Secretary-Treasurer Wilfred Peck. The fire hall at Ganges is manned, but there is no hot line.

Chairman Charles Baltzer suggested that a telephone to the homes of a number of firemen, as is already in operation at Ganges, might be a better method.

Some question was raised as to whether the firebell in Mayne school was operating.

"Of it isn't, we'd better jump on it quick," replied the chairman.

Sponsored by the S.S.I. School & the G.I. Community Arts Council

Use of Mahon Hall and Centre to be debated

Community use of school facilities on Salt Spring Island will be the subject of a special meeting of trustees of Gulf Islands School District on Monday, April 22.

Last week the school board heard criticisms of the new community centre in the elementary school at Ganges and a plea for the use of Mahon Hall for school drama.

Meeting will commence at 1 pm and it will be concerned with the co-ordination of the use of school facilities.

Original resolution presented to the board came from Mrs Sheila Fraser and asked for a meeting to consider the use of the Mahon Hall. On the motion of Mrs. Nonie Guthrie the meeting will consider both facilities in Ganges.

Ken Gaylor, English teacher at Gulf Islands Secondary School, who also specializes in drama, asked for the use of Mahon Hall during the school day in order to rehearse student plays.

He charged that the acoustics in the new activity-community centre room are poor.

Mrs. Guthrie sharply disputed the statement.

The drama teacher also explained that the use of any stage, in either building, is impractical when other activities are taking place in the main hall, behind the curtain.

Mrs. Guthrie recalled that when the mike went dead she spoke to about 700 people in the activity room and that she made herself heard without difficulty. Hollywood actor Stuart Margolin was present at

the opening and he expressed satisfaction with the acoustics, she added.

Mr. Gaylor interposed that the new room could not rival the intimate flavour of Mahon Hall. The height of the stage is wrong, he continued and the stage is surfaced with a plastic floor which prohibits nailing scenery to the floor.

Mrs. Fraser, a member of the Salt Spring Players stated that the players would be using the new activity room, but that they still needed place to rehearse.

Chairman Charles Baltzer told Mr. Gaylor that no commitment would be made on the use of Mahon Hall until the public board meeting next week, when all potential users of both facilities will be invited to express an opinion.

That meeting is going to be a "sweaty business", observed Mrs. Guthrie.

Mrs. Norman Hind-Smith also spoke to the board on the subject of the use of both facilities. The Salt Spring Players need 10 days' use of some facilities for rehearsals before any show is presented, she explained. Mr. Gaylor shared this concern for rehearsal space.

REPORT CARD IS CONSIDERED

New system of report cards is under discussion at Gulf Islands Secondary School.

Last week the trustees of the school district heard a progress report and authorized further investigation.

No action will be taken without a clear estimate of the costs of printing such a form, it was agreed.

Appearing before the board were Vice-Principal H. R. Archer and Counsellor Margaret Sitton.

Proposed card would provide the parents with a carbon copy of the report, while the master copy would remain with the school.

Present system calls for the copying of the report from a master card, with the accompanying hazard of errors in copying it out.

the hike were Vince Knight, Don Lawley, Larry Peterson, Adrian Wolfe-Milner, Jack Smith and Sandy Smith.

1969...

Mrs. A. E. Craddock has donated another one acre waterfront lot to the Save the Children Fund. The first lot raffled in 1967 brought in almost \$17,000. From the proceeds a vocational school was built at Pusan. The second lot like the first has a southwest aspect. Proceeds will go to the operation and maintenance of the school.

FLAG FOR ALL NEEDS

What's orange and black and plastic and could save your life? A B. C. Safety Council Distress Flag!

Measuring 36" by 24" and bearing the black square and ball design recognized as a standard marine distress signal the fluorescent flag is highly visible when spread on boat deck or cabin top to attract aircraft attention or when displayed for passing boats to see.

Though designed for boaters these Distress Flags are invaluable safety aids for hikers and hunters and campers too.

Compactly pouched they're available from the B. C. Safety Council at 1477 West Pender Street, Vancouver for just \$2.00. Add 35¢ for postage if ordering by mail.

The B. C. Safety Council distributes 'Itinerary Trip Cards' to some marinas and yacht clubs. Boaters are advised to pick these cards up, fill them out prior to any trip and leave them with a relative or neighbour. The informa-

tion on these cards could be a life-saving factor if a rescue attempt should be warranted. There is no charge for these cards.

MORE THAN 300 ATTEND ART SHOW

BY ELSIE BROWN

The annual Art Show sponsored by Mayne Island Paint and Sketch Club was the most successful of any held during its four years of operation.

The contributors and workers are enjoying a much needed

MIDDLE SCHOOL

(From Page One)

school would be on Pender or on Mayne, said Tom Davidson, of Saturna.

The first part of her motion covered the feasibility of a middle school, said Mrs. Vasilev and the second part referred to location.

Trustees decided that they had already accepted the principle of a middle school and the only factor in dispute was its location.

The motion for such a study was defeated when only the mover supported it.

A letter from G. N. Hacking, of Galiano, expressed opposition to the idea of a middle school in the islands. He had found opposition to it on Galiano, said the writer.

Mr. Hacking asked a number of questions and offered his own answers.

Are there adequate facilities among the Outer Islands? There are, he stated.

And at Ganges? Again, he submitted there are.

The transportation was a problem, he warned, with the emotional upset of travelling over the water, when the sea is rough.

Mr. Hacking questioned whether there was adequate accommodation at Mayne and particularly whether there was accommodation for students in the event of a failure to get home for weather conditions or other factors.

Finally, he questioned whether the expense was justified for so few children.

"No voice has reached me opposing the idea of a middle school," replied Mrs. Clare McAllister, trustee from Galiano.

Only one voice was raised negatively at a meeting of some 50 parents at Galiano, the board was assured.

If the department of education gives approval to the proposal the facilities will have to be adequate, explained Superintendent Cam Stewart, the department will ensure that the standards are high enough.

Only one dissenting vote was cast when Mr. Davidson's motion was presented.

Resolution calls for the location of a middle school on Mayne Island and the initiation of negotiations with the department of education.

Only dissentient vote was cast by Mrs. Vasilev, who asked that her vote be recorded. Mr. Baltzer stated that he hoped to gain an interview with the minister of education and asked the secretary of the Inter Islands committee, Mrs. Newman to accompany him. He also invited Vernon Roddick, of South Pender. On learning that Mr. Roddick was not a parent, but a spokesman for the parent-teacher club, he switched names and invited the secretary of that club, Mrs. Auchterlonie to accompany the delegation.

ed rest after their strenuous two days, requiring long hours of meeting the public and serving tea, not to mention the work of putting up and taking down the more than 100 pictures on display.

The holiday week end and the grand weather was a contributing factor to the success of the show and the artists deserve a great deal of credit for their efforts in making a show of this kind available to the public. Visitors and commuters remark on the fact that such a cultural stimulus is not available to their children on the mainland and else where which is a feather in the caps of the members of the Paint and Sketch group.

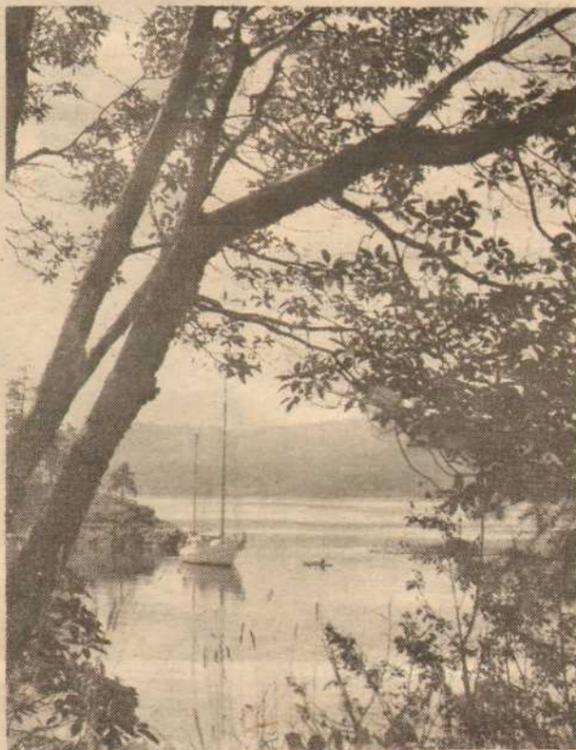

The following were contributors at the show: Joyce Mitchell, Marjorie Haggart, Nita

Flick, Edona Medcalf, Kathleen Dought, Betty Fry, Nancy Rainsford, Annie DeRousie, Barbara MacFarlane, Blanche Anderson, Sophie Betts, Ilsa Fassler and Helen Buckland.

Mayne Island scenery was very much in evidence as well as West Coast lighthouses including our own. Totem poles, trees, farm houses, dogs cats and mice and our own beloved St. Mary Magdalene church gave a variety for any interested purchaser.

Workers on the various committees were: tea, Margaret Bennett, Kathleen Dought and Blanche Anderson; door, Helen Buckland, Barbara MacFarlane and Clara Imrie; cataloguing, Nita Flick and Edona Medcalf; main gallery, Nancy Rainsford, Joyce Mitchell, Marjorie Haggart and Annie

NEW SAILING TRIPS FROM GANGES

A new facility for tourists will be in operation this summer on Salt Spring Island when a charter sail boat will begin its trips on May 15. She is the *Anywhere*, skippered by Deg Degroot.

When the first sail boat entered Ganges Harbour, more than 100 years ago, the navigation of the ship depended on compass and seamanship to navigate the rocky coasts of the islands in the Georgia Strait.

The largest sailing vessel in Ganges Harbour, a century later is equipped with ship to shore radio-telephone and a variety of electronic equipment equal to any in a good motor vessel.

The *"Anywhere"* is owned and operated by Deg Degroot, who recently acquired it from his brother. The latter was making charter tours from the Puget Sound to the Queen Charlottes.

The boat accommodates eight people comfortably with its old world style lounge and wood interior.

Skipper Degroot has handled all sizes of sailing vessels for a number of years. He came to Canada from Holland in 1954 and since then has been artist and seaman.

The charter service will cover only the circumnavigation of Salt Spring and will offer day tours for visitors and residents of the island.

DeRousie; little gallery, Sophie Betts, Margaret Bennett and Betty Fry.

Children were admitted free and, including parents and visitors, the total was in excess

of 300. Tea was served to 208 people and more than 19 pictures were sold.

Visiting from Galiano were Elizabeth Hopkins, Lorna Tweedale and Betty Steward.

Think that building your new home will be a lengthy complicated business?

Just ask Darrel and Betty Taylor about Westwood Homes.

When the Taylor family was planning a new home, they looked at the work of several builders.

And, in the end, they decided to take their ideas to Westwood Homes.

It was a wise choice. Because at Westwood we offer a complete home-building service. We can help you every step of the way—from turning your ideas into practical plans, through the actual construction to finished product. We can even help you arrange financing.

And you'll be assured of a quality home, built from the finest kiln-dried materials, at a reasonable cost.

So, when you're thinking of a new home, take a tip from the Taylors.

Shop around.

Then talk to your Westwood dealer.

CHARIOTS MOVE OFF BEFORE MAIN CROWD

Chariots were entered by Lions, Salt Spring Rotary Club Salt Spring Island Chamber of Commerce, the two Fulford organizations and the A Watch of BC Ferries.

They moved off at shortly before 1 pm to get the hill clear before walkers got tied up with the chariots. Walkers who ran first did not necessarily finish first. The BC Ferries nearly established a record when their float ran over Desmond Crofton's dog in the rush from the starting line.

THE LIONS SAY

Thank You! Thank you!

For your support in the Walkathon.

Any person pledging cash, we have your pledge at Ganges Pharmacy and will be happy to take your money!

... in seven years

RESULTS

First out: first in were Art Buitenwerf, Ed Davis and Uli Temmel, in their various categories. They were the serious runners, keeping up the pace all the way.

Special award, for the walker with the greatest amount of money pledged, was taken by Samantha Dixon. Samantha is five years old. This trophy, presented by a former sporting goods store in Sidney, has been presented each year for seven years. It has been won by a member of the Dixon family each year for seven years.

All her family solicited pledges for Samantha Dixon. She had more than 60 different people pledging a total of \$653 for the walk. That's a heavy load for a five-year-old. All she had to do then was walk the eight miles.

Winners in the various classes are listed below:

Fastest man, over 21, Ed Davis; fastest woman, over 21, Jill Richards; fastest male, 17-20, Uli Temmel; fastest female, 17-20, Susan Spencer; first married couple, Rev. and Mrs. Peter McCalman.

First male teenager, 13-16, Arthur Buitenwerf; first female teenager, 13-16, Jennifer Byron; first boy, 10-12, Douglas

Elliot; first girl, 10-12, Carina Ronne; first boy, 9 and under, Rowan Dixon; first girl, 9 and under, Kathleen Mouat; most original entry, Fred Haywood family dog team; oldest finisher, Eileen Perry; youngest fin-

isher, Sean Albhouse and, special award, Samantha Dixon.

CHARIOT EVENT

Best looking chariot and team, "A" Watch, B.C. Ferries; second best looking, Fulford Hall Committee chariot; first chariot over the finish line, Royal Fulford Harbour Gentlemen's Yacht Club;

chariot with the most money riding on it, Salt Spring Island Lions Club.

NATIONAL HOMES LIMITED

The Haywood 1248 square feet, plus carport

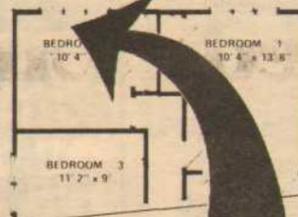

Generous Living Space in Narrow Lot Plan

Three bedrooms on the main level with ample opportunity to add more in the well-proportioned "daylight" lower level. From the street, this Haywood model has a distinctive appeal... the strong vertical lines of siding and the window treatment add to the illusion of "a much larger home". Fine scope too, in this design for interesting colour touches in the window panels.

Combined living/dining room has a wonderful open effect increasing the proportions of each room. Kitchen adjacent is U-shape with additional wall for appliances and extra storage... eating... for information...

- Well suited for a narrow lot.
- Decorative panels inspire many color treatments.
- Fine wide area for playroom in basement.
- Popular low-slope roofline adds to the modern appearance.

This is a page from a National catalogue....
OVER 70 OTHER HOME DESIGNS FOR CHOICE

What a selection of component-built homes offered by National... two, three and more bedroom models in ranch, L-shaped, cathedral-entry and two-storey designs. If you own a "problem" building lot, there's National's Customplan Design service. There's sure to be a model to fit your family needs and budget.

COMPARE BEFORE YOU CHOOSE

Before you buy or build, make the comparison test... the National home against any in the industry... there are over 50 points of difference and/or superiority in the National one. It's a story of Bigger, Better, Heavier, Thicker, in items such as wall and roof sheathing, cabinetry, basic designing and other important points... over 50 of them; more than enough to convince you of National VALUE.

PARK PROPOSAL OPPOSED

CHAMBER ASKS FOR CONSIDERATION OF ISLANDERS

Salt Spring Island Chamber of Commerce has approved a resolution calling on Prime Minister P. E. Trudeau to listen to the fears of the Gulf Island residents before considering the proposal for establishing an international park on the west coast.

Copy of the resolution will be sent to various ministers and concerned parties in Ottawa and on the coast.

The resolution followed an address by Norman E. Wright, of Prevost Island, who has carried out an extensive investigation into the proposals of the International Joint Commission.

Introducing the subject, Mr. Wright reported that the public hearing in Victoria last October had been informed that the number of United States vessels clearing customs at Sidney and Bedwell Harbour in 1973 was 10,000. Canadian vessels clearing to enter the United States waters was 500.

These figures indicate the pattern of usage of an international park in the islands, he submitted.

Mr. Wright reviewed the 1909 treaty between Canada and the United States under which the International Joint Commission is established to act in all matters relating to international waters. The terms of reference also provide for the mediation of the Commission in matters of dispute

between the two countries.

There is no case on record where the government has rejected a recommendation from the International Joint Commission, warned the speaker.

Wright had sought an injunction to prevent the Commission from holding its hearing in Victoria. He had been advised that there is no court in the land which would hear his case.

The Chamber of Commerce is the best body to represent the community in protest, said the speaker.

Parks are not a means of maintaining a way of life, he cautioned.

Where a national park has been established in Canada to protect a pattern of living, that pattern has been destroyed by the park, he charged. He cited two instances to prove his point.

No newspaper or radio would support him before the October hearing, said Wright. The Vancouver Sun has hailed the proposal as a wonderful project of high-minded people and Premier Barrett, "shooting from the hip, came out to say it was a wonderful idea."

Islanders are not the only opponents to the plan. Residents of Point Roberts are hostile to the park proposal. Dave Hill reported that his family still owns property there and the residents are firm in their

opposition.

The plan calls for the expenditure of \$3 millions on immediate land acquisition, observed the speaker from Prevost. That amount spent on Point Roberts could probably resolve

the problem.

If the isolation of Point Roberts merits the creation of an international park, charged Norman Wright, then what happens if the United States decides that Alaska is also isolated? Would that require an international park of the entire coast? he asked.

Craig Brown at her cottage; old time islanders Mel and Lois MacDonald were at Al and Marg Kerr's with their family. One of my favorite teenagers on the island was Debbie McDonald and now she is Mrs. Mel Ballard, and she still looks pretty to me.

Alec and Emily Close with Bob and Kay Close were also a sight for sore eyes. Bernice (McElroy) with her brand new husband, Dave Brown were here. Welcome to our island, Dave! Don and Shirley Picker are working on their Lyall Harbour lot.

John and Trudy Bentam had daughter, Bea with husband, Dave a-visitin'. We had the Jr. John McMahon's for a great Easter gift. Anyone left out please forgive us!

SATURNA BY PAPAJOHN

The Lions Lyre: on Tuesday night we had a delicious chicken dinner in ye hall. The fair ladies who concocted it should all be Field Marshalls, not a mere Colonel: Debbie Graham and Jan Crooks, you owe me two bits for that one! Guests were Con Hungle, president of Oak Bay Lions and his incoming successor, Abe Lilly. A lot of projects were discussed and cussed but the main business was our "Charter Night" on Saturday, April 27. Tom Davidson is in "charge" of sleeping accommodations (that was mis-spelled on purpose). We are donating the aspirin to Tom for free. This will be another big night for Saturna. Our Women's Club of Field Marshalls are preparing the dinner. Further information can be obtained from John MacDonald at the wharf

store. Well, I was lucky this year. We managed to get a few of our delicious island buns but missed out on the bread. The Women's Club Bake Sale broke all records this year; they sold out in 13 minutes. Danny Lawson won Bernice Crooks' super delicate cake made in the form of a bunny. Somebody won the raffle but we haven't found out who yet so will tell you next week. Congratulations to Margery Blane as convener.

As the number of guests grows larger each year we are just going to list them: Bill and Irene Lawson had Irene's sister Elaine, husband Jim and all the wee Lamberts; Bill and Dorothy Price had Johnny Wood as a guest; Stella Coutts had daughter Randy with husband

? Inquest ?

BY PASTOR DAVID G. LOW

American Secretary of State Henry Kissinger, is flitting around the Middle East attempting to arrange a peace treaty. On the Suez front, he has been relatively successful and there is reason to believe that the persuasive powers of his will prevail, so long as Israel cedes more and more territory.

In Israel the opposition parties are vocal, and very unhappy about the retreat into the Sinai. So far as they are concerned, it is the beginning of the end when Israel has to give up its land. In fact such pressure is being applied that it appears a new government is in the offing.

Unfortunately whatever uneasy peace Mr. Kissinger is able to achieve will never endure. Because all through the history of the Jewish people, there has been, and is a strategy of evil; to destroy God's chosen people.

The Arabs will not be satisfied when Israel refuses to cede more territory. A Moslem mosque now occupies the very Dome of the Rock where Israel one day will rebuild the Holy Temple.

There is also a divine plan for Israel. She will never be destroyed because God's purposes can not be frustrated. Israel as a nation, reject God and His plan of salvation. But through mercy, God will deal with them and draw them back to himself. (Romans 9: 27 II: 1-6)

So we are saying, behind the human scene, there are tremendous spiritual forces at cross purposes. All hell will be unleashed to destroy Israel. And all heaven committed to preserve the Jews. Attempting to cope with all this is Henry Kissinger. At the zenith of his influence. But still a puny peacemaker battling against supernatural forces of hatred. A scary role for mortal man.

No bigger park ask Islanders

BY MARY BACKLUND

After some discussion at the open meeting on Galiano on April 6, it was decided to ask the provincial government to refrain from any expansion of Montague Park.

Parks chairman Warren Wilson opened the subject with a reflection on various opinions which had been voiced on the subject. He had researched the subject extensively and he had maintained an open mind on the subject, he told the meeting of about 60 islanders.

The division of island opinion on the subject revolves around the ultimate benefit to residents, he explained.

Those who seek more development want it for overflow crowds, for hikers and bikers, those against say that more campsites bring more campers, nearby residents suffer from excessive noise from radios, profanity, intoxication, trespassing, and breakins. They have lost the "peace of mind" they came to find. Those who wish to have bikers and hiker campsites only should think of the vehicle campers, who have to pay ferry fares to the island, and not have a place to camp. Some say there should be a reservation system, but those against say it will be too cumbersome for all of the islands, and people will circumvent the system and come anyway.

Some say that on top of Montague Hill there is room for expansion, and also on the point that is not now used. Both of these will be hard to cover by park rangers, hard to patrol, and the fire hazard is too great. We should not have more expansion until there are more regulations to control fires on all of the island.

A lot of people say we should just simply close the park, and the problem will go away, but with improved ferry service, and people coming to camp on McMillan-Bloedel land, it will not solve the problem.

The chairman thanked Mr. Wilson for his intensive investigation into the park problems, and he was given a hearty vote of thanks for his work.

George Hacking, speaking on behalf of the Parks Branch, then announced that they have done a complete survey of Montague Park, and land above the north road has been turned down flat - because of the danger of the big bluff down into the harbour. He doubted more expansion would be considered until at least 1976.

Worst problem has been the pre-school break recently, when 72 people were evicted,

62 trees were cut down, four table-tops destroyed, and two signs torn down. Of those evicted, they were kicked out near ferry-time, and two of them were taken into custody to Ganges by R. C. M. P.

It was the unanimous decision of this meeting that we respectfully ask for no more expansion of Montague Park.

It was decided to ask for some kind of reservation system for the park.

Letters opposing the International Joint Commission plan to make the Gulf Islands a park will be written, with everyone urged to write personal letters, too.

Annual dinner will be held on June 15; Betty Steward will be in charge of arrangements. Everyone is in favour of asking to have a police officer stationed on the island for the summer months.

Next council meeting will be held at the school in May.

OVER 70 MEMBERS OF GALIANO CHAMBER

BY MARY BACKLUND

More than 60 people came out to the Galiano Island Chamber of Commerce open meeting at the community hall on Saturday night, April 6.

President John Liver welcomed members and friends, after which the president and vice-president, Betty Steward, were sworn-in by Ron Thompson.

Mrs. Joan Callaghan was secretary pro-tem, as resignation of the appointed secretary for this term, Miss Fowler, was accepted with regret.

Treasurer Hall Tingley reported on finances of the organization, and said that to this date, there are 77 members. He hopes for more members yet.

Mr. Liver then told the meeting of recent cases of dogs running loose, killing sheep and deer, and it was decided that letters will be written to officials asking for some effective action.

George Hacking told the meeting of the new act to replace the "Sheep Protection

Act", which will state that any two dogs found chasing or harassing game will be destroyed.

He also said that no dog shall roam from sunset to sunrise, and could be destroyed by any police officer or conservation officer.

Betty Steward, health and welfare chairman, said that supplies for the first aid room have been replenished from the first-aid fund. She said that it is not feasible this year to have a blood-donor clinic, but it may be possible next year.

She welcomed dentist, Dr. Paterson, and his wife to the island, and also Dr. T.F.H. Armitage and his wife, who will be moving soon to live on the island.

Basil Benger, planning chairman, said that work is now being done on the by-law for sub divisions for the island, and also spoke of a flood control recommendation.

Ron Thompson, transportation, spoke of establishing contact with ferry officials. He said that lights will soon be installed on the Sturdies Bay

wharf, and the waiting room, there, is now near completion.

Mr. Thompson welcomed Gary Lupton who has been appointed to work with George Tully at the Sturdies Bay dock.

Bob Knowles, roads, spoke of several problems with roads that have been carried over for a couple of years, and wished to clear them from the books. He said that he finds the local roads foreman extremely co-operative in talks held with him on the fixing of roads on the island.

Following some discussion, it was decided that letters

should be written to officials regarding Clanton Road, a cut-off downhill from the North End Road to Montague Harbour, and Scoones Road, which should be opened up for beach access, and is in the process of being moved from one side to another.

In the absence of Jack Bickerton, publicity, Joan Callaghan said that the new Galiano brochure will be back from the printers shortly, and she paid high tribute to Betty Fairbank, who has worked many long hours to help complete the brochure.

HOW CAN I???
By Anne Ashley

Q. What can I do when ink has been spilled on a furniture top?

A. Quickly blot up as much of the ink as you can, then apply a dampened cloth to the spot and press it down firmly. Turn the cloth to a clean place, and again press it against the stain, repeating as many times as may be necessary. Do not rub the ink in. Ink also washes off some surfaces easily.

Q. How can I remove old water paint from a concrete wall?

A. Dissolve a pound of trisodium phosphate in one gallon

of hot water, and apply this solution very liberally, soaking the walls thoroughly. Then scrub with a stiff wire brush, removing all the paint from the crevices and cracks.

Q. I seldom get the use of more than about half of my tubes of household cement, because it hardens. How can I remedy this situation?

A. You can keep your tubes of household cement usable to the last drop if, after using them, you replace the cap carefully, then put the tube into a small screw-top jar, and close this tightly.

OLD FASHION NOTES

(From Page Four)

now so modish are smarter than any of the floppy styles I can remember. They should however, be worn by older people - nothing looks more grotesque than people with a figure bulging in the wrong places trying to squeeze into a straight frock

Skirts seem, if anything, narrower, only their severity is relieved by ruchings - straight flounces, and the very latest scheme for disposing of superfluous material; the pannier skirt. This has to be perfectly made to be wearable, but one's eye gets accustomed to all sorts of freakishness in dress so it may take on... At present one sees dozens of 'models' in all the best shops and just a few in the streets. All sorts of fancy shoes are to be seen, but for those who don't want to go in for different ones to match each frock - grey, with stockings to match are the most useful. Great efforts are being made this season to introduce freak sunshades but lots of quite normal shapes are to be seen - with occasional pagoda or dome-like tops and here and there the flat Japanese shape.

Petticoats are soft, straight and narrow and positively must not rustle - though I hear we are to rustle next winter! A quite new craze, which seems to have crept in during the last few days is to wear all sorts of odd garments together and a smart French firm showed a model with a scarlet taffeta coat worn with a white

lace skirt, and again a white skirt and a black silk coat.

This fashion is sure to be killed rapidly by bad taste.

Such weird "mixtures" could only be attractive when very cleverly chosen and as everyone is not an artist in these matters, like many another sudden fancy will quickly pass.

Evening gowns have a distinctly oriental appearance, due, it is alleged to the influence of the succession of oriental plays in London. So much for a general resume, next week I hope to give you more details as regards hats which you may be able to apply personally and sundry descriptions of simple washing frocks. I should very gladly answer any personal queries or give advice as to shopping by post in London for which the big shops have special arrangements.

The Editor has given me strict orders not to make expensive suggestions, so I shall try not to... just at first.

VETERAN WORKBOAT OF SALT SPRING ISLAND

SOPHIA KNOWS THE COAST

* * *
AFTER 66 YEARS OF SAILING HERE

The Sophia knows every current and every shape of coastline among the islands. She should. She has been sailing these waters for 66 years.

The Sophia is the pride and joy of Dal Georgeson. She has been his life and his livelihood for 37 years.

The Sophia is a workboat. She started life as a troller on April 8, 1908. Her birthplace is long gone. The Hinton Electric Company, who built the island boat, closed their doors... and their ways... in 1914.

The veteran ship had sailed many a storm before she came into the possession of the Georgeson family. In 1937 Andrew Georgeson, of South Pender, and his son, Dal, acquired Sophia from Dr. and Mrs. Aldgrove, who lived on the shores of the Canal between the Penders. She had been used latterly as a pleasure cruiser, but the Georgesons had new plans for her.

In 1937 she went into service as a work boat. The father and son proprietors were engaged in log salvaging and other marine work before the war.

In 1941 she took on a new and important role in Canada's western waters and joined the Air-Search and Rescue service here.

Dal Georgeson never quit the service and the Sophia is still registered as an emergency vessel and he still receives calls to go out to another vessel or a crew in distress.

In 1958 the partnership was dissolved and Dal bought out his father's interest. The Soph-

ia was salvaging logs as well as ferrying goods and passengers around the coastal waters. The water taxi service is a sideline, today.

On April 8, Skipper Georgeson and a few friends celebrated Sophia's birthday. In the passing years the vessel has become as much a part of the local waters as any landmark used by her skipper.

And she's weathered well. She has had a change of engines and lots of maintenance, but she is still the same sturdy little sea boat that she was when Hinton Electric watched her slide down the ways for the first time more than a

half-century ago.

This year Sophia will have her own birthday present. She will be brought up out of the water and scraped down. The weatherbeaten woodwork will be renewed and she will get a new coat of paint. She'll be as good as new.

In her 66 years of activity the sturdy island boat has suffered only one accident. The chimney pipe once caught fire, but it was put out with water as quickly as it started. She carries her age well, does Sophia. And she will carry it for many years to come, says her skipper.

TO WORK ON ROADS

Highways Minister Graham Lea announced last week that his department will make available approximately 800 jobs this summer under the provincial government's Student Summer Employment program.

Larry Anderson of the Gulf Islands department of highway office, has reported that there will be a few jobs on the islands under this program, and that several students will be hired from May to September to do such work as vegetation control along highway right-of-way, development of roadside rest areas, erosion control, painting, inspection and clearing of culverts.

Students hired under the summer program will work the normal departmental hours

and receive monthly salaries ranging from \$400 per month, for students below Grade 12 level, to \$600 for a graduate student.

Actual hiring will generally be done by the local district offices and attempts will be made to employ suitable local students.

The department of highways jobs are only part of the government's overall scheme to make use of student labour.

WATER SYSTEM PUT IN

Fulford Hall has an approved water system, and is in use again.

The Fulford Hall Committee has installed a water chlorinator to meet the standards required by the health authorities

Water supply is adequate to meet the requirements of households, but it cannot be supplied to a public hall without treatment, the committee was told by the health inspector.

Recent survey indicated that part of the hall stands on the property of Gordon Cudmore, who has fenced off his land.

Mr. Cudmore explained that he has not enjoyed the support of the community in his air-strip dispute.

He is contesting the designation of the former Fulford Hall parking lot and the old lumber yard lot, across the road, as farmland. If the government releases the two properties from the freeze, Mr. Cudmore has assured the committee of his co-operation.

Straw vote on park next week

Islanders will be invited to take part in a straw vote over an international park.

In next week's issue of Driftwood a ballot form will appear

in order that interested readers may show how they feel over the proposal to include the islands in a 3,000 square mile marine park under international administration.

Readers may indicate how they view the proposal and return the ballot to Driftwood. Summary of information derived from this vote will be sent on to Ottawa.

DISEASE AROUSES CONCERN

Increase in the incidence of infectious hepatitis has aroused concern among trustees of Gulf Islands School District. There are now five known cases and two suspects, the board was told last week.

The medical officer of health has been asked to approve general inoculation of Gamma Globulin for students, teachers and maintenance staff. Dr. A.S. Arneil has already visited the island for a personal investigation.

Although the proportion of cases on Salt Spring Island is no greater than the average in Saanich, trustees were worried at the increase after it had been hoped that the disease had been checked.

Mrs. Clare McAllister asked what advice had been offered to students. They should be cautioned to wash their hands thoroughly after using the bathrooms, she urged. The students should be informed of the urgent need for cleanli-

The yukon has its southern border on the 60th parallel and abounds in wildlife and vegetation. Yukon has 175 varieties of birds and more than 500 species of wild flowers and shrubs.

ness, said the trustee.

Cases are in various parts of the island and are not identified with any one area, board learned.

ISLAND CENTENARIAN DIES

Pender Island centenarian died at Port Washington on Saturday. She was Mrs. Lucy Thompson. Mrs. Thompson was middle-aged when she came to Canada from her native England, 65 years ago.

She was 101 years of age.

She is survived by two daughters, Mrs. K. (Elsie) Parsons, at Pender and Miss Olive May Thompson and one granddaughter.

Graveside service was held on Wednesday, April 17, at Colwood Cemetery in Victoria

VANDALS BURN WRECKED CAR ON ROADSIDE

When he rolled his car off Beaver Point Road on Saturday night, Peter Birze, of Victoria lost the car to vandals.

Car was abandoned and he reported that it was later set on fire by passers-by. Car was destroyed.

Birze also faces a charge of driving without due care and attention.

AUCTION SALE IS SLOW

Galiano Club held the annual auction sale on April 13, with a small turnout, and not many items for auctioneer Tom Carolan. Many of the articles had to be sold for much less than they were worth. Coffee and doughnuts were on sale all afternoon, and some homebaking was also auctioned off.

BOWLERS OF THE WEEK

This is the last week for bowlers at Leisure Lanes to qualify for the Bowler-of-the-Week Contest. Top bowlers this week were Louise Clarke, with 219, 286 and 172 for 677 and Fred Gurney, whose 259, 237 and 155 totalled 651.

Leagues are now into the roll-off season. The Wednesday night and Legion Leagues have completed theirs. The Wreckers won the Blundell trophy by beating out the other teams of the Wednesday league. Bunty McNally was at her shining best. Bunty rolled 210, 301 and 323 for an 834 total.

The Gin Fizzles, of the Legion League, managed to squeeze out the other seven teams and emerge the winners of that league.
